

Component # 11: CSR (Community Service Restitution)

The goals of our CSR Component are to instill a good work ethic in our participants; give them ownership of their LIGHTHOUSE 2911 Program and to provide a safe and supervised location for our participants to perform their required CSR hours. The youth help set up and clean up before and after LIGHTHOUSE 2911 activities and are allowed to help the staff with various tasks during the programs. This work is recorded as completed CSR hours. As CSR youth are supervised an atmosphere resembling that of employment and employment supervision is created to give the participants work experiences.
